

Guatemalan Molina Project

The Mayan population in Guatemala is one of the poorest in the world. In our project area of Lanquin, the basic staple of life is corn. This sponsorship will provide a family with a corn grinder that will allow them to prepare the corn for the tortillas they eat each meal. It would save them hours of back-breaking work to hand-crush the dried corn. This item is very expensive to them and highly desired. It would affect their lives in a positive way each and every day for many years to come.

- Sponsorship of \$25 covers one Grinder to be given to a needy family on our next trip in March of 2010.
